## The American Cinematheque

The American Cinematheque's public programming celebrates the art of the moving picture in all of its forms -- from the classics, to American independents, the latest international productions, documentaries, shorts, animation, works in progress and experimental projects. Series are highlighted by screenings of rare works, special prints and audience discussions with filmmakers. The Cinematheque owns and operates the historic Egyptian Theatre on Hollywood Boulevard, originally built by Sid Grauman. The Egyptian was the home of the very first Hollywood movie premiere.
